

Are you scheduled for a core needle or forceps biopsy?

You may be eligible to participate in a clinical trial

About the study

This study is being done to collect tissue and information that will be used in the training and validation of an investigational diagnostic platform. If you choose to participate, additional biopsy sample(s) and clinical data will be collected from you.

Why should I participate?

Clinical studies are an opportunity to contribute to science and help future discoveries. There are no direct benefits to you from taking part in this study, but we hope that others will benefit from what we learn because of your participation in this research.

Will I be reimbursed for taking part?

You will be compensated up to **\$500** for taking part in this study.
